DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 6-9 and 11-13 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Jachowsky (US Patent 5,261,804).

Jachowsky discloses a profiled segment for a vulcanized tire mold. As shown in Fig. 2, the system comprises tire vulcanizing mold member 13, which receives partial profile segments 3-8. These partial profile segments 3-8 are shown with an irregular and non-planar surface configuration corresponding to applicant's claimed bead portions. Clamping member 19 clamps and holds the segments in the mold 13 during the molding operation (see col. 4, lines 17-39).

Allowable Subject Matter

3. Claims 5 and 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
